

Why So Special?

Simply Living Jewelry® – Carmel and Michael

What Makes Simply Living Jewelry Extraordinary?

Customer service and satisfaction is a vital element of our business philosophy.

We treat all of our customers the way we'd like to be treated.

We hand select exceptional minerals, gems, fossils provided to us naturally by Mother Earth and sometimes from outer space. We examine each piece for eye appealing natural color, pattern and texture. Many of our stones begin rough and we cut and polish them in our fully equipped lapidary* studio *(the art of cutting gems).

Our design studio is equipped with special daylight lighting and Carmel's artistic design skills. A great deal of time and thought goes into each design.

Our work studio is a fully equipped metal smith and lapidary studio.

Again, customer service and satisfaction is a vital element of our business philosophy.

We treat all of our customers the way we'd like to be treated.
